The Process:

We will provide you with an initial pdf example of the Glove box guide to start the customization process. This gives you the opportunity to look over the graphic/photo layout including the top left photo of your market area and cover revisions for your specific state and practice information.

We will also send you a link to a Google document with the content of the glove box guide in an easy to edit

format. You will need to edit the areas of **red text** on this Google document to provide accurate information based on the laws in your state.

After we receive your revisions we will incorporate them into all four documents and email proofs for you to approve. Once proofs are approved the different components of the package will be either installed, emailed or sent to the printer.

Standard Package Price is \$300

Additional charges may apply depending on amount of additional work requested or needed at \$80/hour. After initial consultation an estimate of any additional costs will be sent for approval.
